## PROJECTS

---

[ 12/10/2024 – 10/11/2024 ]

### royal fitness

- The Royal Fitness website is a modern, dynamic, and visually engaging platform designed to inspire fitness enthusiasts and support individuals in achieving their health goals. It features an intuitive and mobile-friendly design with a sleek black theme accented by vibrant colors, creating a premium and motivational atmosphere. The website offers a comprehensive range of services, including physical fitness, weight gain, strength training, fat loss, weightlifting, and running, showcased with high-quality imagery and interactive animations powered by AOS for a captivating user experience. A dedicated “Why Choose Us” section highlights unique selling points such as expert trainers, supportive management, and a friendly community, while the pricing plans are clearly outlined in three tiers—Basic, Pro, and Premium—each tailored to meet diverse fitness needs. Client testimonials add authenticity and trust, featuring personalized reviews and interactive design elements. The project leverages advanced web technologies like HTML5, CSS3, and responsive design, with additional libraries such as Typed.js for text animations and grid-based layouts for seamless usability across devices. Social media integration and engaging call-to-action buttons further enhance the site’s accessibility and interactivity. Throughout the development process, key challenges like ensuring responsiveness, maintaining performance with visual richness, and creating engaging animations were effectively addressed, resulting in a scalable, high-performance platform. This project demonstrates expertise in front-end development, responsive design, and user-centered features, positioning Royal Fitness as a leader in digital fitness services.

## RECOMMENDATIONS

---

**Name:** nouzha chahboune    earth and life science teacher

**To Whom It May Concern,**

It is with great pleasure that I write this recommendation for Adam Khalid. As their Earth and Life Sciences teacher, I have had the opportunity to observe Adam’s exceptional academic performance, intellectual curiosity, and dedication to their studies.

Adam has consistently demonstrated a deep understanding of scientific concepts and a passion for learning. Their ability to grasp complex topics and apply them in practical scenarios is remarkable. For example, during our unit on my subject Adam excelled not only in theoretical discussions but also in hands-on activities, showcasing their analytical skills and critical thinking.

Beyond academics, Adam has proven to be a responsible and collaborative individual. Their contributions to group projects and classroom discussions have always been insightful and thought-provoking, creating an engaging learning environment for their peers. Adam's leadership abilities were particularly evident during their exams, where they [specific achievement, e.g., coordinated a successful project or presented innovative ideas].

Adam’s passion for Earth and Life Sciences is matched by their unwavering commitment to excellence. Their inquisitive nature and perseverance make them well-suited for further academic challenges and professional endeavors. I am confident that Adam will continue to achieve great things in their future pursuits.

## HOBBIES AND INTERESTS

---

**running**

running has become more than just a hobby for me—it’s a part of who I am. Every day, I lace up my shoes and hit the pavement for a 5-kilometer run. It’s not just about staying in shape; it’s my way of finding peace and staying grounded.

When I run, it feels like the world slows down. It’s just me, the rhythm of my footsteps, and the fresh air around me. No matter how stressful or busy my day might be, running gives me a sense of clarity and balance. It’s my time to think, reflect, and sometimes even solve problems I’ve been stuck on.

Sticking to this daily routine has taught me the power of consistency and discipline. There are days when I don’t feel like running—when it’s too hot, too cold, or I’m just tired—but I remind myself of how good I feel afterward. Pushing through those moments has helped me grow stronger, not just physically but mentally as well.

For me, running isn't about speed or competition; it's about showing up for myself every day. It's become my way of staying healthy, both in body and mind, and it's something I look forward to no matter what life throws my way.

### **taekwondo**

Write here the description...staying active is a big part of my life. Every day, I make time for two things I'm really passionate about: running and Taekwondo. These aren't just hobbies for me—they're my way of staying balanced, focused, and pushing myself to grow.

Running is something I do every single day. I make it a point to run 5 kilometers, no matter the weather or how busy my schedule is. It's not just about fitness; it's my time to clear my head and reflect. There's something freeing about the rhythm of my footsteps and the fresh air—it helps me reset and stay grounded. Sticking to this daily routine has taught me discipline and the power of consistency.

On the other hand, Taekwondo challenges me in a completely different way. It's not just about mastering techniques or improving flexibility; it's also about mental focus, respect, and perseverance. Training in Taekwondo has helped me build confidence, stay calm under pressure, and develop a strong sense of discipline. Every time I step into the dojang, I feel like I'm not just working on my skills but also on my mindset.

Combining running and Taekwondo has been a great balance for me. Running keeps me energized and clears my mind, while Taekwondo pushes me to stay sharp and disciplined. Together, they help me stay active, motivated, and ready to take on any challenge.
